A Bit About Myself

I have learned about web development since the middle of 2020. I have a big passion for code and taking notes whenever needed, found myself happy when discovering a new technology to add to my own stack. Learning something new has driven me to the web development journey, enabling me to create new things.

Skills And Technology

Expertise: HTML, CSS, Tailwind CSS, Bootstrap, SCSS, JavaScript, React.js
Comfortable: Node.js, MongoDB, Express.js, Next.js, Redux
Familiar: TypeScript, Material UI
Tools: VS Code, Figma, Adobe XD, Chrome Dev Tools, Git, GitHub
